The Brain Balance Achievement Centers help children with neurobehavioral and learning difficulties reach their greatest physical, mental, social and academic potential. They work with children with ADD/ADHD, Dyslexia, Tourette’s, Aspergers and Autism Spectrum Disorders. The underlying cause of many of these disorders traces back to a functional imbalance of brain activity. The Brain Balance Program targets sensory/motor deficits, neuro-cognitive (academic) concerns, and bio-nutritional needs and is tailored to each child’s needs.

Littman Krooks LLP provides legal services in the areas of Elder Law, Special Needs Planning, Special Education Law, Wills and Trusts, Probate, Guardianships and Asset Protection Planning.
